WF32S is a bullet shaped gripper body with a U-joint, permitting installations at any angle. The WF32S has a female thread so that it can be fastened to a M12 threaded stud or hanger bolt (not included). Includes a cable side exit for adjustability.

Installation

Attach WF32S to a pre-installed M12 anchor or M12 all thread (not included). For wood blocking, use a M12 hanger bolt. For additional security, tighten set screw using a 2.5mm hex key (not included).
